WELCOME

Dear Partner,

With our new partnership between **Landlogic** and **GRANIT PARTS**, we are opening a new chapter for parts supply in New Zealand. Together, we combine local market knowledge with the strength of one of the world's largest aftermarket specialists – giving workshops and dealers access to a broader, faster, and more reliable supply than ever before.

Founded in 1996 and part of the **FRICKE Group** with over 100 years of experience, GRANIT PARTS offers the **world's largest assortment of replacement parts**. This includes **OEM parts**, **OES parts**, and **GRANIT's own brands** – ensuring the **right solution for every customer request**.

As the **exclusive national distributor**, Landlogic now makes this full assortment available across New Zealand – supporting workshops and dealers with more choice, proven quality, and dependable supply.

Our shared commitment is clear: to strengthen the competitiveness of New Zealand's trade partners and provide you with the parts and service you need to succeed.

YOUR AFTERSALES SOLUTION

Founded in 1996, GRANIT PARTS has grown over nearly 30 years into the trusted partner of more than 40,000 customers worldwide. As part of the **FRICKE Group**, an independent family business with more than 100 years of experience in machinery and parts supply, GRANIT PARTS combines tradition and innovation with world-class logistics. With a **90,000 m² logistics centre in Germany**, GRANIT PARTS holds over **300,000 items in stock** and offers access to a product range of more than **14 million parts**.

For New Zealand, this partnership is a game-changer. As the **exclusive national distributor**, Landlogic will make the full **GRANIT PARTS assortment** available across the country – delivering solutions not only for tractors, but also for construction, forestry, viticulture, and farm machinery. The assortment includes **OEM parts, OES parts and GRANIT PARTS own brands** – ensuring the right solution for every need.

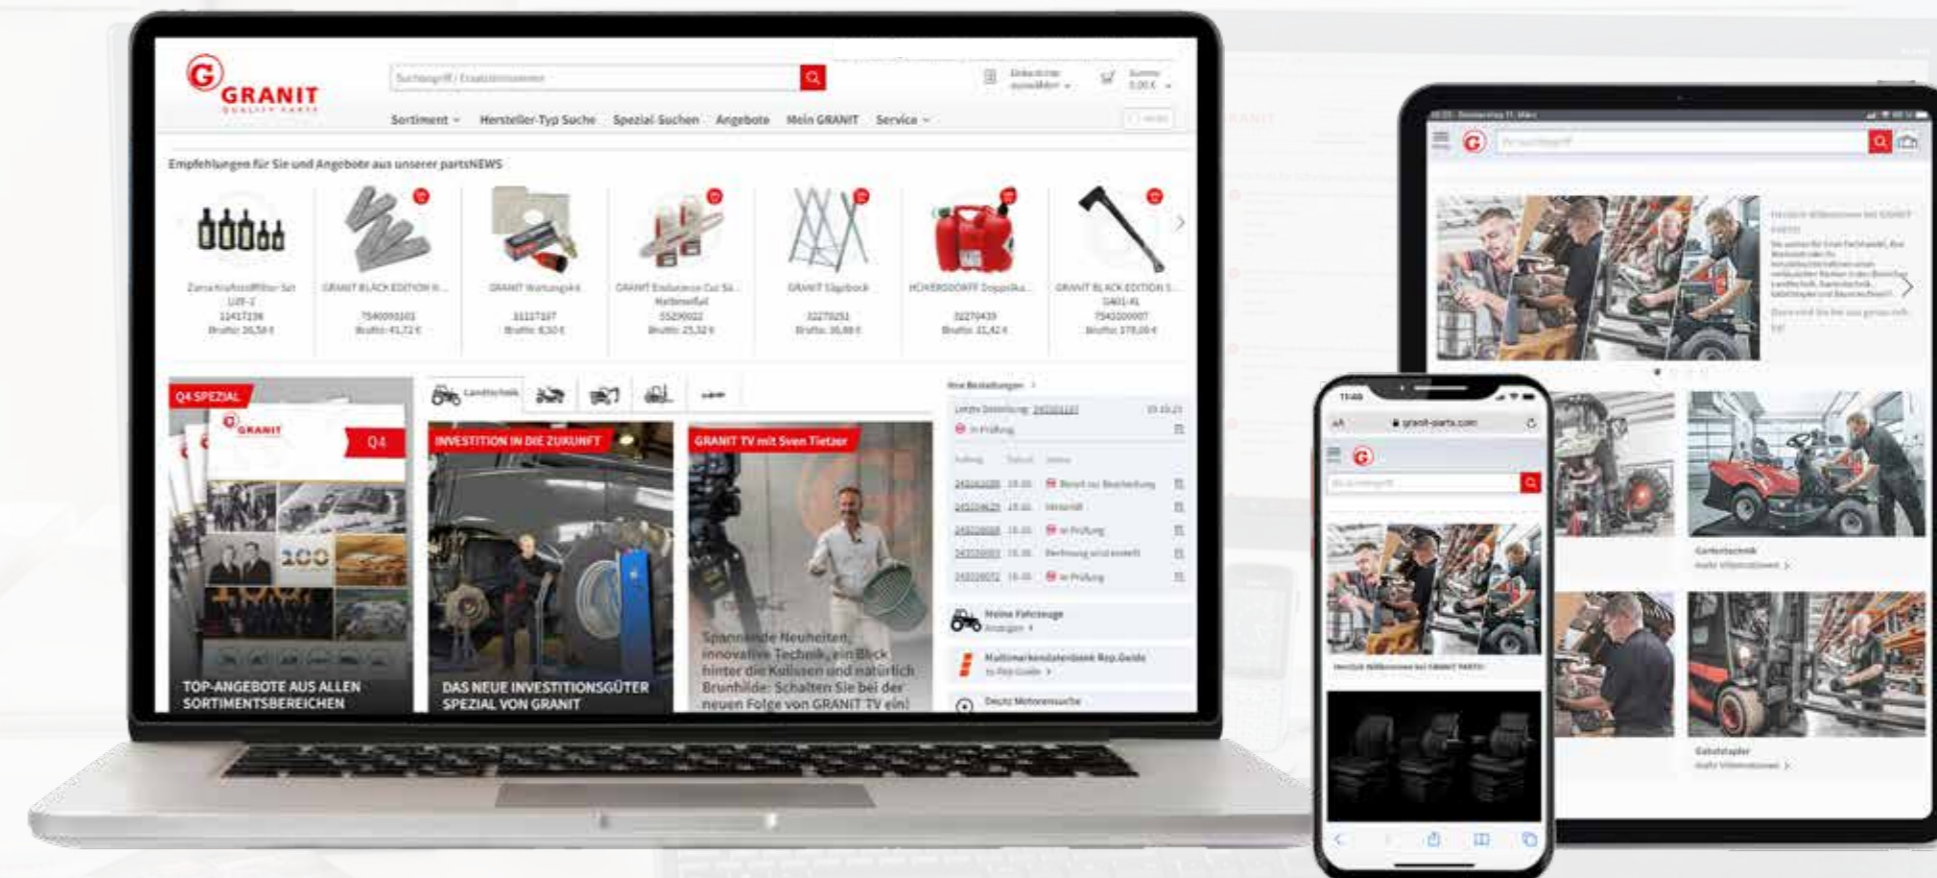

The benefits at a glance:

- 300,000 items over 90,000 m² constantly in stock for you
- Personal consultation on site, on the phone or online
- Delivery of your order within one day
- Simple spare parts identification with special searches & filter functions
- All spare parts & accessories from a single source
- Numerous support & repair services
- Millions of parts, including hard-to-find components from international manufacturers
- Rigorously tested parts sourced worldwide to meet the highest performance and safety standards
- Backed by GRANIT's global logistics strength and Landlogic's local expertise
- A user-friendly webshop and dedicated service to make finding and ordering the right part faster and easier

GRANIT WEBSHOP & APP

With the GRANIT webshop you can access the GRANIT PARTS range of replacement parts from anywhere. The app for iOS and Android combines all the functions and search options of the webshop with other smart features such as the barcode and text scanner.

Use the product range overview.

or our Make/Model search.

Easy ordering with direct display of price and availability.

Detailed exploded-view diagrams with zoom and direct ordering function.

WITH THE MAKE/MODEL SEARCH IN THE GRANIT WEBSHOP

Time is limited and extremely valuable in specialist workshops, both for you as a workshop professional and for your customers who urgently need their tractor or machine for their daily work. This is why we developed the make/model search for replacement parts. This search function can help you quickly find what you're looking for based on the machine type, saving you tedious catalogue searches or time-consuming research on the internet. Find the right parts for the model in question in just a few clicks.

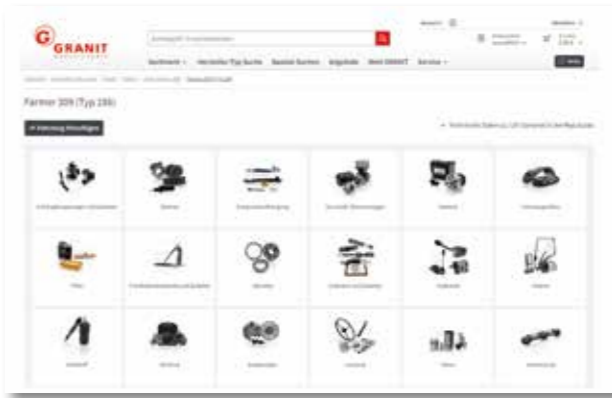

The easy way to find the right parts:

1. Once you are logged into the GRANIT webshop, the make/model search is clearly visible under the main navigation bar. First, enter the name of the manufacturer. The system will then suggest relevant models from which you can select the correct one.
2. Next, select the category such as brakes, cooling, engine or electrics. The respective subcategories will then be displayed.
3. Clicking on a sub-category will take you to the appropriate search results for your customer's tractor or machine model, where you can select the required part.

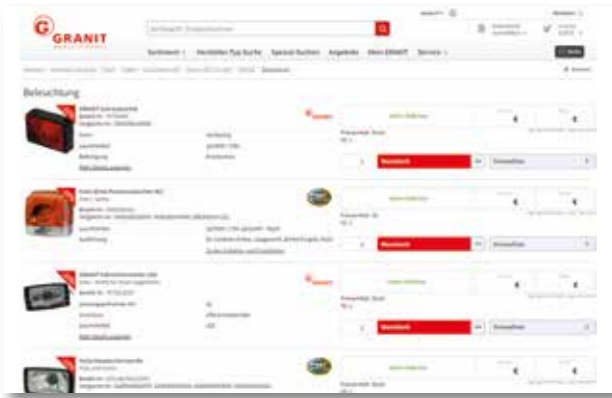

The category names are the same for all manufacturers and models. This will make it easier for you to find your way around, and to search for specific category names where required. Use our helpful manufacturer type search - over 40,000 models from 345 manufacturers are already linked to the right spare parts!

SPECIAL SEARCHES

In the GRANIT webshop, we offer you a variety of special searches that will get you to your destination quickly: In addition to the engine search from Deutz and Yanmar, the axle part finders from Spicer and ZF, the GRANIT Oilfinder, the Battery Finder and the Tractor Paint Finder, you will find many more special search functions.

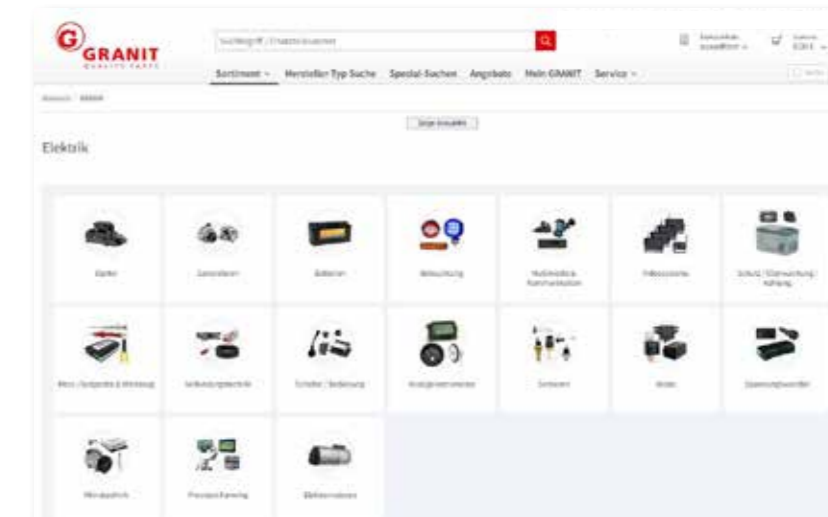

SEARCH VIA THE PRODUCT RANGE

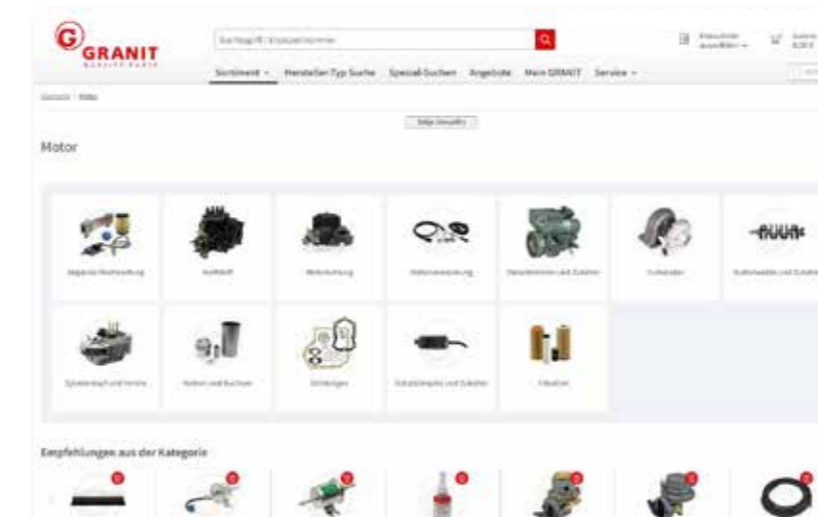

The detailed range search in our webshop also makes it easier for you to find the right spare parts. Here are some examples of our product ranges:

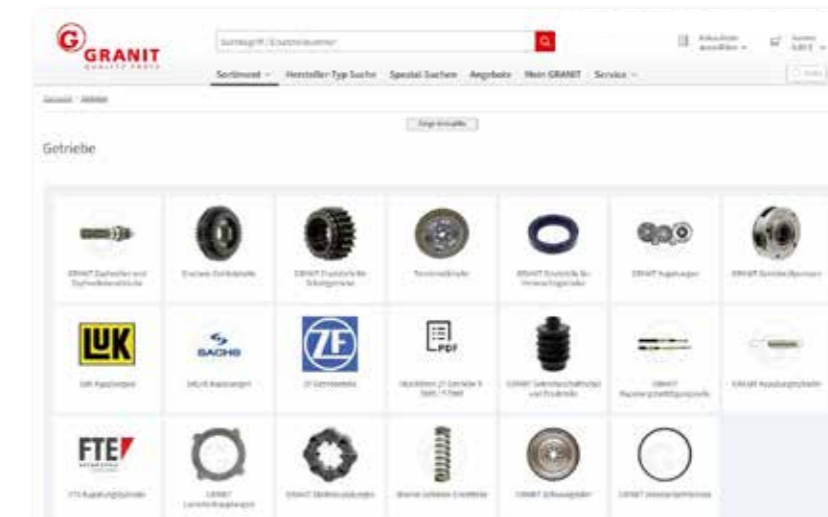

Tractor parts & accessories

Electric

Engine

Transmission

ENGINE PARTS

Common Rail spare parts

With common rail technology, combustion can be optimised to produce fewer pollutants and lower fuel consumption. GRANIT offers you a very wide range of products in the field of exhaust gas aftertreatment. We have recently expanded this to include parts for common rail injection. **Common rail injection now also available!**

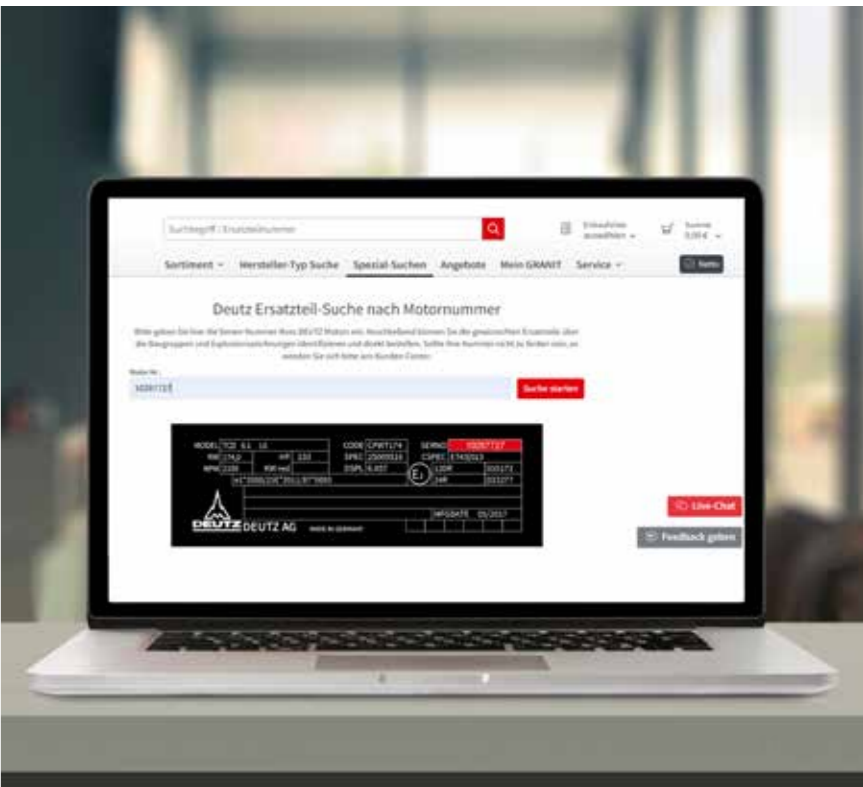

Turbocharger

Benefit from our significantly expanded turbocharger product range and our original equipment range. Our brochure on the turbocharger product range provides you with the ideal overview.

DEUTZ and YANMAR engine search

To make the search for the right spare part as intuitive as possible for GRANIT customers, we offer you with the DEUTZ and the YANMAR engine search in the GRANIT webshop the ideal tool for your spare parts research. Based on original spare parts technical drawings, we provide you with up-to-date data.

Simply select, under "Special Searches", the engine search for the desired engine manufacturer. After entering the engine number, the appropriate replacement parts are displayed in the GRANIT webshop. This gives you clear and quick access to all available spare parts that are installed in a wide range of manufacturers and machine types.

CAB

Spare parts and accessories for tractor cabs

In our GRANIT PARTS product range, we offer you a comprehensive range of spare parts for the tractor cab, which includes not only spare parts such as windows or gas struts, but also accessories such as mirrors, wiper blades, wiper motors, sunshades, seats, document boxes or cab mats.

Seatfinder via the GRANIT webshop

A seat must be optimally tailored to the driver's needs. That's why we make it easier for you to find the right seat in our GRANIT webshop: You can use our search filter for seats to select by brand, seat type, upholstery type, swivel, belt system, seat heating and many other criteria.

PROBOSS seats

GRANIT offers you premium quality seats for agricultural machinery at an attractive price under its own PROBOSS brand. PROBOSS focuses on ergonomic and comfortable seating for the driver under the motto "Comfort makes the difference". The range includes seats in various price categories that fulfil the driver's individual needs with a wide variety of equipment options. When developing the new seat series, PROBOSS opted for components from leading German and European manufacturers. This guarantees the highest quality standards and optimum functionality. The seats are equipped with low-frequency air suspension, which makes even the basic models feel like high-end seats. This high-quality suspension reduces vibrations that can be harmful to the users's health, prevents the seat from rocking during field work, and ensures maximum driving comfort.

PROBOSS passenger seat

The PROBOSS series also offers a passenger seat that is suitable for the Fendt 200, 300, 400, 700, 800, Farmer 400 and Favorit 700 series. The passenger seat can be stowed very compactly in the cab and impresses with additional swivelling and a seat cushion.

GRANIT cab glass

We offer specialist dealers and workshops an extensive range of front, rear and door windows to suit all manufacturers and vehicle models. GRANIT cab-in windows are manufactured to the highest quality standards and are the perfect alternative to original spare parts due to their precise fit. Permanent controls guarantee this promise. The comparison test with the original shows that GRANIT cab windows are 100% identical to the original in terms of their dimensions and glass thickness. This makes the installation of a new GRANIT pane child's play for you and ensures a stable fit.

TRAILER TECHNOLOGY

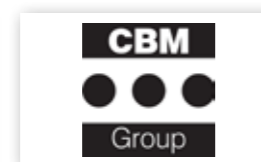

The GRANIT range of trailer hitches technology offers a wide selection of spare parts. In this area, we offer you high-quality parts from our own GRANIT brand as well as products from leading manufacturers such as Walterscheid, Sauermann, Rockinger and Scharmüller.

Make/Model search for towbars

Use the **manufacturer type search** for towbars in our GRANIT webshop: Select the first menu item "Trailer hitches" in the "Tractor spare parts & accessories" range. Enter the manufacturer of the tractor and the respective type in the search form and you will receive the matching products for this model as a search result.

Search filter three-point parts

In the GRANIT webshop, you will also find search filters for three-point parts in the sub-categories of this product range section, which will make it much easier for you to find the right parts. In the search mask, you can easily enter the brand, model, category and desired dimensions to find the right spare parts.

ELECTRIC

GRANIT also offers a wide range of electrical products, including starter motors, alternators and batteries. You can find all items in the GRANIT webshop in the 'Electrics' category in the 'Tractor spare parts & accessories' range.

Starters & alternators

Our range of starter motors and alternators is very broad: In addition to tested products from GRANIT, we have a wide range of articles from the manufacturers Mahle, Denso, Bosch and Prestolite in our range.

Lighting

Our LED special with vehicle-related and standard lighting products

With our GRANIT LED lighting special, we bring light into the darkness: The brochure contains everything you need to know about our new and comprehensive range of LED lights, as well as additional information that will help you and your customers choose the right lights every time.

In addition to useful information, the LED Lighting Special from GRANIT also features parts of our LED range, including all our new products.

Batteries

Batteries for every application at GRANIT PARTS

The most important energy store for many electronically operated devices and systems is the battery. There are many variants, from powerful starter batteries to small button cells. We offer you the right power supply and suitable accessories for maintenance and charging for every application and area of use. In our wide range you will find batteries in OEM quality and additions to the range from renowned brands such as VARTA.

BRAKES AND TRANSMISSION

In the brakes and transmissions market segment, we offer you high-quality parts from our own GRANIT brand as well as from leading manufacturers such as ZF, Luk, Sachs, Eaton, FTE, Knott and Valeo.

ZF transmission finder

Are you looking for a suitable transmission part from ZF? Then save yourself a time-consuming search by clicking on "Transmission" in the "Tractor spare parts & accessories" section of the GRANIT webshop and then selecting "ZF transmission parts". By entering the tractor manufacturer and the respective type, you can quickly and easily find the right spare parts.

Extensive GRANIT clutch range

We offer you a very comprehensive range of clutches from various manufacturers, such as Luk, Sachs, Knott, FTE and of course GRANIT's own brand, which is of OE quality.

STEERING AND AXLE

Axles

We also offer spare parts from our own GRANIT brand in OEM quality in the axle parts market segment. We also offer products from recognised manufacturers such as CARRARO, SPICER and ZF.

Special search axle part finder

With the help of the appropriate special searches for all three brands in the GRANIT webshop we also support our customers here in identifying spare parts. And it works as simple as that: Type the axle number in the searchfield of the webshop , without pressing enter. The pre-selection opens immediately and you can easily select the parts list number from CARRARO, ZF or SPICER from the individual categories.

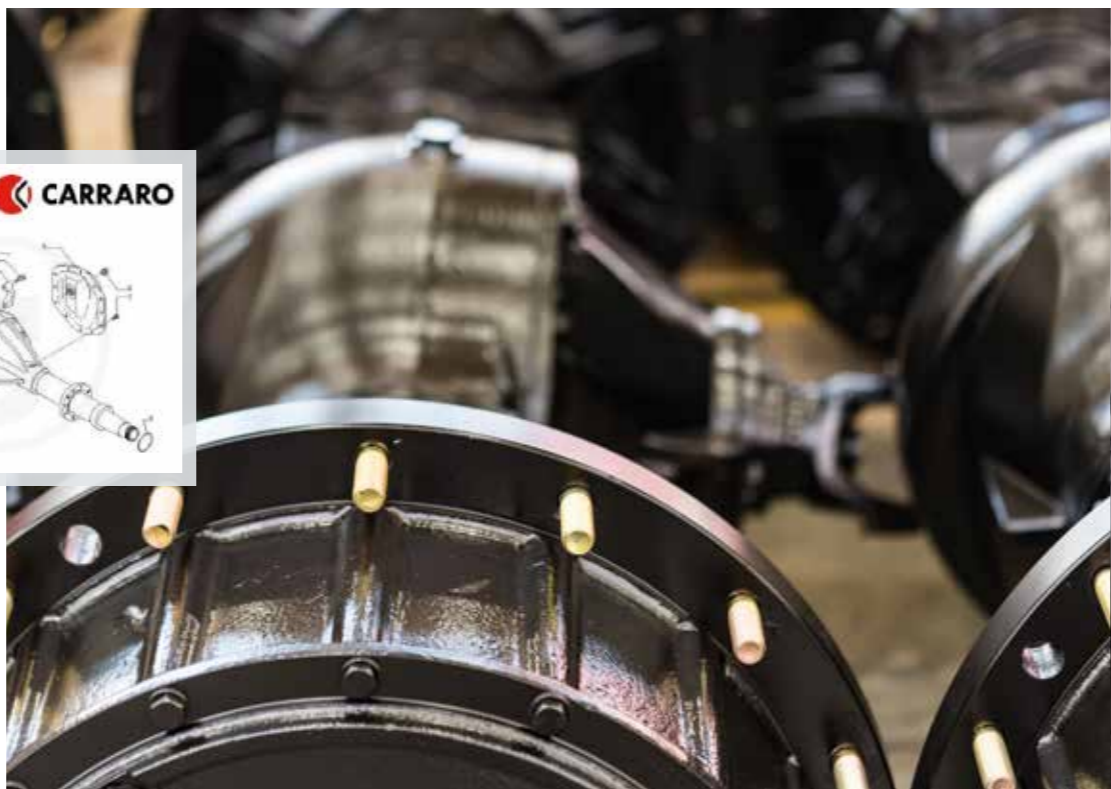

WORKSHOP EQUIPMENT

Efficient work is only possible in a well-equipped workshop. In the GRANIT webshop, we offer a comprehensive selection of essential products for professional workshops, including:

- High-quality tools for professional use
- Operating and auxiliary materials
- Oil and lubrication technology
- Paints and accessories
- DIN and standard parts
- Smart workshop furnishings and much more

SPECIAL SEARCHES

AGRICULTURAL TECHNOLOGY

In the agricultural technology sector, we provide a unique and comprehensive range of products from leading manufacturers as well as cost-effective spare parts from our own GRANIT brand.

Our product range at a glance:

- » Soil cultivation & seeding technology
- » Fertilization, slurry & crop protection
- » Harvesting & lifting technology
- » Irrigation technology
- » Attachments & front loader spare parts
- » Drive shafts & drive technology

**GRANIT ENDURANCE CARBIDE – Performance for soil cultivation.
Made in Germany.**

For soil cultivation applications, our premium private label GRANIT ENDURANCE CARBIDE offers high-quality, extremely durable wear parts. The development of GRANIT ENDURANCE CARBIDE products has always been practice-oriented. The result is a product range that permanently withstands the toughest conditions, ensures long-term shape stability, and provides consistently high-quality work results at a uniform working depth.

ROTARO – Power to Perform.

Under the premium ROTARO brand, we have developed powerful and reliable drive shafts. Our ROTARO product range includes particularly high-performance and durable drive shafts that can easily withstand the extreme demands of professional use. An innovative, specially developed locking system allows for quick assembly of the drive shaft guard during maintenance.

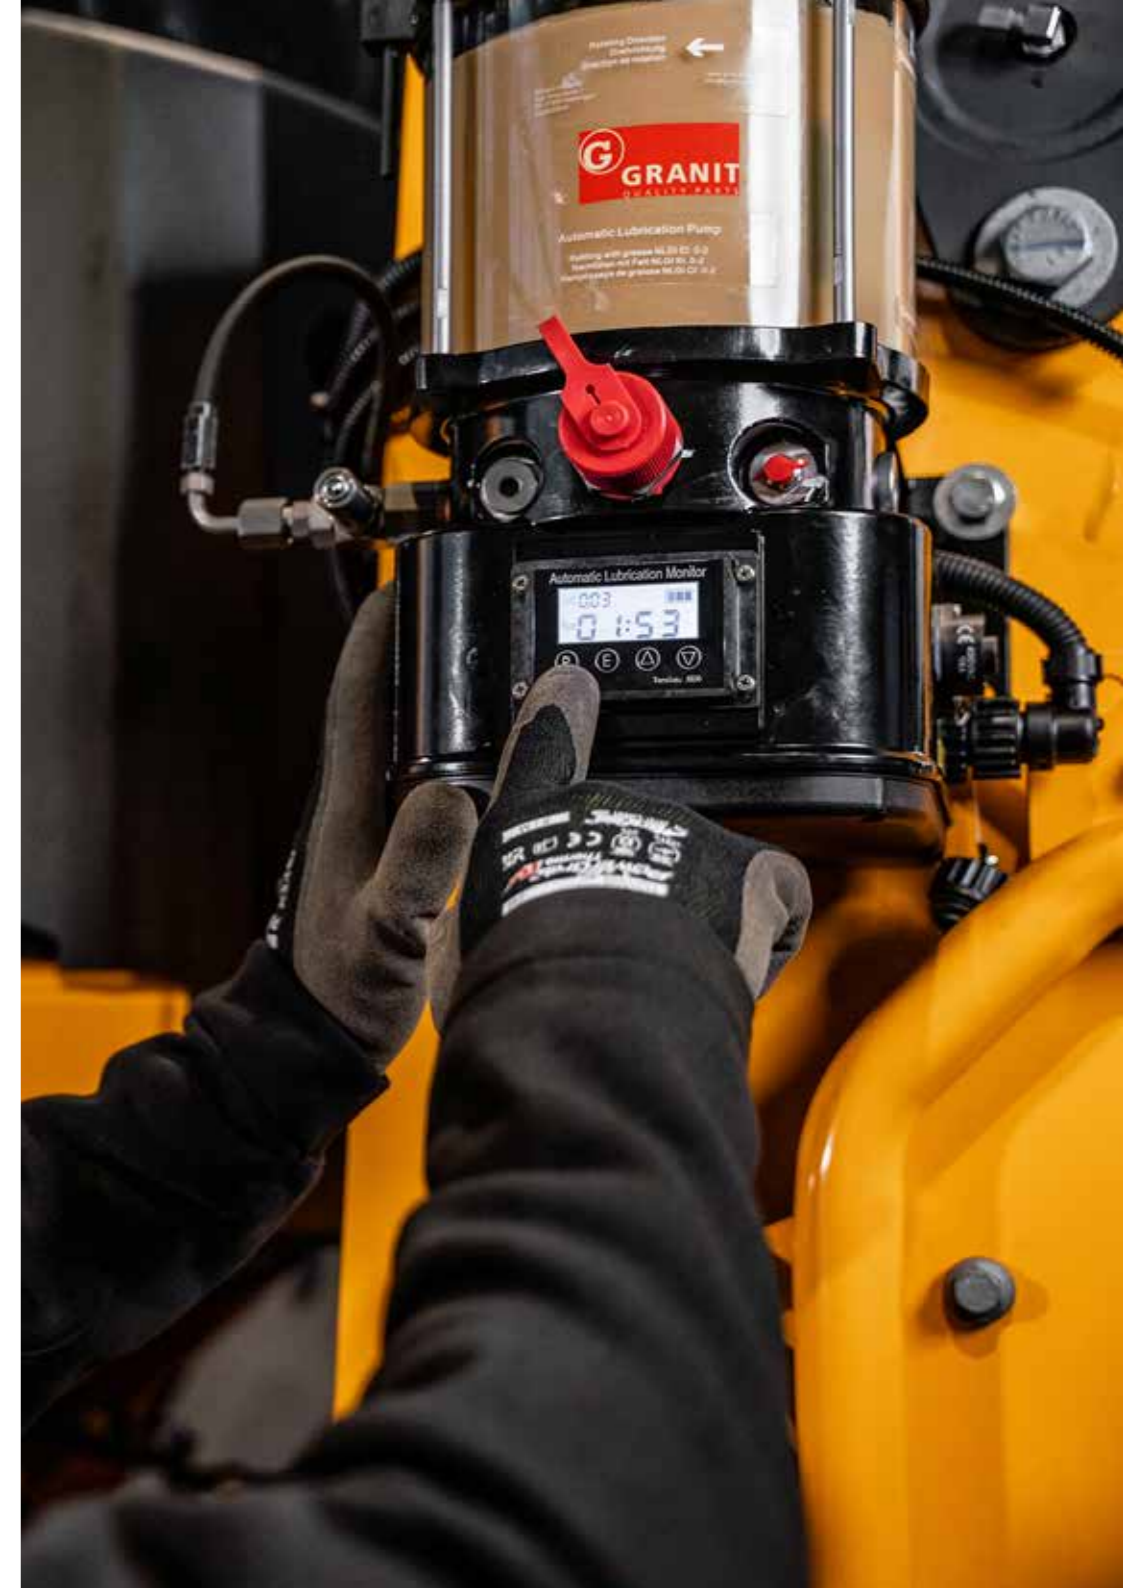

CONSTRUCTION MACHINERY

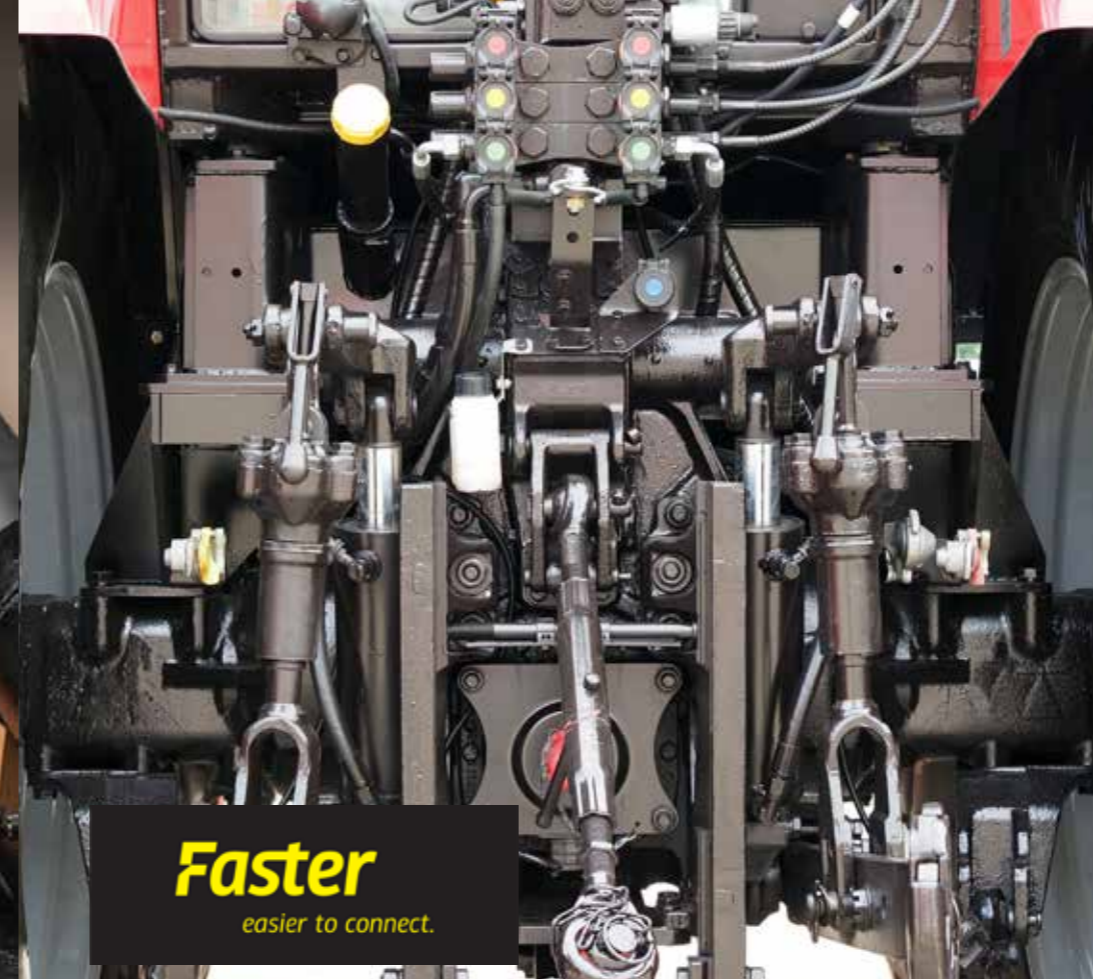

In the field of construction machinery, GRANIT PARTS offers a wide range of OE, OEM, and ident parts – from cabin windows, central lubrication systems, and seats to lighting and chassis technology such as drives, idler wheels, and rubber tracks, as well as classic excavator teeth, filters, and engine spare parts. The range is complemented by a large selection of spare parts for telehandlers.

Our product range at a glance:

- » Wear parts and attachments
- » Undercarriage parts for wheeled and tracked machines
- » Engine parts & lubricants
- » Hydraulics, central lubrication & pneumatic systems
- » Spare parts for electrics, air conditioning, cabin & bodywork
- » Soil compaction technology
- » Construction equipment & site accessories

In addition to original parts, GRANIT PARTS also offers cost-effective alternatives under the GRANIT private label. With the help of the Make/Model search and a variety of special search functions, spare parts can be quickly and easily found in the GRANIT webshop, which contains over 14 million items.

HYDRAULICS & PNEUMATICS

The extensive GRANIT hydraulics and pneumatics range features a comprehensive selection of GRANIT PARTS own-brand products, plus numerous OEM parts. As the partner of professional dealers, it is crucial that our customers can rely on our products - especially those from our own brand. That's why we offer high-quality own-brand products at fantastic prices.

The quality of all GRANIT PARTS products is ensured by our in-house quality management team as well as external testing institutes. We carry out regular product and

incoming goods inspections to ensure that we are able to deliver on our promise of quality.

Why not check out the GRANIT aluminium and cast gear pumps (sizes 1 to 3) or our digital pressure gauges, and experience our quality for yourself. With the GRANIT hydraulic hose crimpers, as well as our expanded machinery range for the hydraulics sector, you will be able to offer new services in your workshop going forward.

GARDEN, FORESTRY AND MUNICIPAL TECHNOLOGY

In the GRANIT webshop you have access to a comprehensive range of spare parts for use in gardening, forestry and municipal technology.

Engine Spare Parts

Whether battery-powered or combustion engines – wear parts need to be replaced regularly. In the GRANIT webshop you will find a wide selection of engines, engine components, saw chains, hydraulic parts and brush cutter spares. Spare parts and accessories for larger machines and harvesters of various manufacturers are also available.

Cutting Technology

Only the right cutting tools ensure a clean and precise result. From robust lawn mower blades and nylon lines to flail and hammer blades, GRANIT PARTS offers a wide selection for every application.

Industry & Workshop

A well-equipped workshop is the foundation for efficient work. The GRANIT webshop provides professional tools, operating and auxiliary materials, workshop equipment, as well as modern lifting and welding technology, including products for tire service.

Forestry Technology

For productive and safe forestry work, GRANIT PARTS offers high-quality saw chains from the ENDURANCE CUT range and durable wear parts for mulchers in the ENDURANCE CARBIDE line. The portfolio is complemented by harvester spare parts, tools for manual wood harvesting, and personal protective equipment.

Water Supply and Drainage

Whether irrigation during dry periods or pumping during flooding – our range covers everything from hoses and pumps to well construction and filtration, as well as modern control systems and drip irrigation.

Cleaning Technology

The GRANIT webshop provides professional solutions for high-pressure cleaning, sweeping, sewer and surface cleaning, as well as disinfection and foam cleaning. We also offer effective products for sustainable weed removal.

Winter Service

For use in snow and ice, GRANIT PARTS offers a wide selection of equipment and accessories. Snow chains, snow shovels, sweeping rollers and spare parts for snow blowers are part of the portfolio, as well as robust snow ploughs and salt spreaders.

QUALITY MANAGEMENT

At GRANIT PARTS, quality always comes first. Through consistent and systematic quality management, we ensure that our products meet the highest standards. From the careful selection of suppliers and regular testing in our in-house laboratory to the continuous optimization of internal processes, our goal is to provide customers with reliable, first-class spare parts and solutions.

Our quality management is equipped with its own laboratory and carries out more than 200 inspections every month. In addition, we cooperate closely with several external partner companies. With a dedicated team of over 30 employees, we conduct regular reviews together with all purchasing offices and maintain close collaboration with Product Management to ensure lasting product reliability and customer trust.

Within quality management, we focus on the development of processes, supplier audits, and the statistical evaluation of data in order to derive effective quality measures. Manuals are created and quality data is continuously maintained to guarantee transparency and consistency.

Quality assurance covers sample and incoming goods inspections as well as warranty management. It also includes the handling of nonconformities, ensuring that any deviations are identified and resolved quickly and effectively.
